## PINOT GRIGIO 3L CASK WASHINGTON STATE

### Washington State

Washington's success with vinifera is due in large measure to the state's unique geography. The vineyards are planted on the east side of the Cascade Mountains, which serve to protect the region from marine weather off the Pacific coast and limit rainfall to just 6 - 8 inches annually. Low rainfall and free-draining soils allow vineyard managers to control vine vigor in order to promote flavor and ripen fruit to perfection. Cool autumn nights protect the grapes' natural acidity.

### Wine Making Notes

Preserving the intense natural fruit found here in Washington is our main goal when crafting this wine. Gentle fruit handling, and long, cool fermentation in steel tanks before blending ensures that we maintain the fresh, fruit flavors of these favorite Washington whites.

### Tasting Notes

Zesty aromatics of citrus, floral and stone fruits invite you to this crisp Pinot Grigio. Bright flavors of citrus continue on the palate followed by refreshing apricot and honeysuckle notes.
