*America's #1 VALUE Wine gets SWEETER*

## *Introducing*

### PINE & POST SWEET HARVEST SERIES

These bright and flavorful wines are spring in a bottle. We preserve the natural sweetness found in these classic varietals by stopping fermentation early, resulting in well balanced acid and residual sugar.

### *Winemaker* MATT OAKLEY

Hailing from Bellingham, WA, Matt found his way into the wine industry while pursuing his passion of great food. After graduating with a degree in Chemistry, he pursued his degree in Enology and Viticulture in Walla Walla. He excelled in this new environment, earning several honors including the Leonetti Cellar and Woodinville Rotary Club Scholarships.

After graduating in 2007, Matt joined the Waterbrook team as the Enologist where he continued to develop his winemaking experience in the high paced, collaborative environment. In 2009, Matt became the assistant winemaker at Waterbrook, working and learning along side acclaimed winemaker, John Freeman. In 2010, Matt became head winemaker for Pine & Post.

Matt has truly found his calling in life and has put down his roots in Walla Walla with his wife and daughter. He believes that winemaking is the perfect blend of science and art. Matt still loves cooking and at most company functions you can find him in the kitchen or in front of the grill with a glass of wine nearby.
